Bird Nets

Hy-Tex AG BIRD knitted monofilament nets offer effective passive protection of seeds, crops and fruit against damage caused by birds and a variety of pests.

The special open structure repels birds, provides minimal shading and excellent air circulation - allowing plants to flourish, whilst avoiding the risk of dangerous mould developing on the fruit.

The light, tough, soft, knitted polyethylene, diamond meshes conform easily to irregular shapes and are simple to install (supported by basic posts and wire frames, or draped directly over the crops).

Features/Benefits:

- Protects Fruit and Vegetables
- High Tensile Strength
- UV Stabilised

Feature	Bird Nets
Product	AG Bird 25 Agrotextile Anti-Bird Netting
Mesh Size	25mm x 25mm
Roll Size	4.00 x 100.00m 12.00 x 100.00m 12.00 x 200.00m

Deviation on dimensions: +/-5% Length; +/-3% (min 5cm) Width

Item features:	Unit	Value	Range	Standard
Composition:	100% ARLENE® HT high tenacity polyethylene UV			
Weight	g/m ²	16	+/-	UNI 9401
Chains per inch	-	---		UNI 9403
meshes-cm	-	3		UNI 9403
Lateral selvages		Yes		-
Lateral selvages with eyelets		N		-
Longitudinal tensile strength	N/M	255	+/-10%	UNI 9405 / EN ISO 13934-1
Long. elongation	%	0	+/-10%	UNI 9405 / EN ISO 13934-1
Trans. tensile strength	N/m	25%	+/-10%	UNI 9405 / EN ISO 13934-1
Trans. elongation	%	140	+/-10%	UNI 9405 / EN ISO 13934-1
Shade factor	%	0	+/-	UNI 10335
UV stability		400	-	ASTM G154

Application Categories: Horticulture, Agriculture and Equestrian
