

Ecofender™ SP1 Semi-Permanent Newt Fences (1mm)

Ecofender™ SP1 Semi-Permanent Newt Fences is a budget option designed for semi- permanent applications requiring a life expectancy of up to 5 years and where there is a medium level risk of human disturbance.

These 1mm thick sheets are supplied in 850mm x 100.00m rolls and have a scored groove 50mm from the top, to aid folding and 100mm from the bottom of the panel to allow the installer to create an underground return, if required.

Features/Benefits:

- UV stabilised
- Up to 5 years life expectancy
- Flat sheet creased 50mm from top and 100mm from base
- Protects newts, frogs and reptiles from entering hazardous areas
- Made in the UK
- Made from recycled plastic
- Non toxic and chew resistant
- Low thermal expansion makes it less vulnerable to distortion during hot weather
- Help contribute towards your BREEAM score
- Reusable

Guidance

- Posts, nails and washers also available (see below)
- We suggest maximum 1.50m post spacing
- We suggest minimum 4 Nails + washers per post
