

Wooden Pegs

We supply fully biodegradable wooden pegs, made from hardwood and are 'T' shaped.

Features/Benefits:

- Fully Biodegradable
- Can hold down erosion control meshes, mulch mats, ground cover and grass mats
- Chemical free
- Life expectancy of 3-5 years

Sustainability:

- Produced in Sri Lanka on plantations
- Once the rubber tree has stopped producing, they are taken down and manufactured into the wooden pegs.
- A new rubber tree is planted in return, to keep the process sustainable and environmentally friendly.
