

Ecofender™ Repair Tape

All weather repair tape for Ecofender™ Standard newt barrier sheets.

Newt barriers may become damaged on site due to general day to day work. If so, this creates a weakness in the fencing and a chance for amphibians to enter site traffic and possibly endanger themselves. Rather than purchasing more newt barrier, instead our repair tape can be used to fix minor damages as a more cost effective solution.

Features/Benefits:

- Used to fix minor damages to newt barrier sheets
- Cost effective solution

Feature	Ecofender™ Repair Tape
Size	50mm x 33.00m 100mm x 33.00m

Application Categories: Wildlife Protection
